

**Commissioning of River Jetties “Ganga” and “Hoogly”
At Rajabagan Dockyard**

Two river jetties “Ganga” and “Hoogly” of size 26M x 9M x 1.9M for berthing of ships at Rajabagan Dockyard (RBD) were commissioned on 30 Jun 10. The entire work of fabrication and erection was through in-house resources and expertise of GRSE. The jetties add to the outfitting and berthing facilities of ships after launching at RBD itself. Eliminating the need of shifting the ships to FOJ / Main Works will result in saving of time and cost.
